

Sleep Architecture Guide

The Foundation of Elite Performance

Why Sleep is Non-Negotiable

Sleep is the #1 performance enhancer. Nothing else comes close.

7-9 hours of quality sleep provides:

- Memory consolidation
- Cellular repair
- Hormone optimization
- Immune system strengthening
- Emotional regulation

The 4 Stages of Sleep

Stage 1: Light Sleep (5%)

- Transition from wake to sleep
- Easy to wake up

Stage 2: Light Sleep (45%)

- Body temperature drops
- Heart rate slows
- Memory processing begins

Stage 3: Deep Sleep (25%)

- Physical recovery
- Growth hormone release
- Immune system boost

REM Sleep (25%)

- Dreaming
- Emotional processing
- Creative problem-solving

Sleep Cycles

Each cycle lasts ~90 minutes

You need 4-6 complete cycles per night

Optimal sleep durations:

- 6 hours = 4 cycles
- 7.5 hours = 5 cycles
- 9 hours = 6 cycles

Wake between cycles, not during them

The Perfect Sleep Environment

Temperature: 65-68°F (18-20°C)

Darkness: Blackout curtains or eye mask

Noise: White noise or earplugs

Mattress: Medium-firm, replaced every 7-10 years

Pillows: Supports neck alignment

Remove:

- TV
- Phone charger
- Bright alarm clocks
- Work materials

Evening Wind-Down Protocol

3 Hours Before Bed:

- Last meal (light, easy to digest)
- No caffeine after 2 PM
- Reduce fluid intake

2 Hours Before:

- Dim lights (use lamps, not overhead)
- Lower thermostat
- Prepare next day

1 Hour Before:

- Digital sunset (no screens)
- Hot shower or bath
- Reading or journaling
- Breathwork or meditation

30 Minutes Before:

- In bed
- Lights out
- Sleep by same time nightly

Sleep Supplements (Optional)

Magnesium Glycinate: 300-400mg

- Promotes relaxation
- Improves deep sleep

L-Theanine: 200mg

- Reduces anxiety
- Enhances sleep quality

Glycine: 3g

- Lowers body temperature
- Improves sleep onset

Always consult healthcare provider first

Tracking Your Sleep

Track for 30 days:

- Bedtime
- Wake time
- Total hours
- Sleep quality (1-10)
- Morning energy (1-10)
- Evening wind-down completed

Goal: 7+ hours, quality 8+, energy 8+
