

Strategic Nutrition Framework

Fuel for Peak Performance

Nutrition as Strategy

Food is information for your body. Every meal sends signals that either enhance or diminish your performance.

The Executive Nutrition Framework focuses on:

- Stable energy
- Mental clarity
- Optimal body composition
- Longevity

The Protein Priority

Protein First, Always

Daily Target: 0.8-1g per pound of body weight

Example (180 lb person): 144-180g protein/day

Why?

- Muscle preservation
- Satiety & appetite control
- Stable blood sugar
- Metabolic boost

Best Sources:

- Eggs
- Chicken, turkey
- Fish (salmon, cod)
- Greek yogurt
- Lean beef
- Protein powder

The Energy Equation

Carbohydrates: Timing Matters

High-Intensity Days: 150-200g

Moderate Days: 100-150g

Rest Days: 50-100g

Best Sources:

- Sweet potatoes
- Rice (white or brown)
- Oats
- Quinoa
- Fruits
- Vegetables

Avoid:

- Processed sugars
- Refined grains
- Sugary drinks

Healthy Fats for Hormones

Daily Target: 60-80g

Essential for:

- Hormone production
- Brain function
- Vitamin absorption
- Inflammation control

Best Sources:

- Avocado
- Olive oil
- Nuts & seeds
- Fatty fish
- Grass-fed butter
- Coconut oil

Hydration Strategy

Daily Water Intake:

Body weight (lbs) $\div$ 2 = oz per day

Example: 180 lbs = 90 oz water

Timing:

- 16 oz upon waking
- 8 oz before each meal
- 8 oz every 2 hours
- 16 oz during exercise

Electrolytes:

Add sodium, potassium, magnesium

Especially important if:

- Low-carb diet
- High exercise volume
- Hot climate

Sample Daily Meal Plan

Breakfast (7 AM):

4 eggs, spinach, avocado, berries

Lunch (12 PM):

Grilled chicken, quinoa, mixed vegetables, olive oil

Snack (3 PM):

Greek yogurt, almonds, apple

Dinner (6 PM):

Salmon, sweet potato, broccoli, salad

Macros:

- Protein: 160g
- Carbs: 150g
- Fat: 70g
- Calories: ~1,900

The 80/20 Rule

80% of meals: Whole, nutrient-dense foods

20% of meals: Flexibility for life

This isn't about perfection.

It's about consistency.

Focus on:

- Protein at every meal
- Vegetables with lunch & dinner
- Whole food sources
- Proper hydration

Results come from daily habits, not occasional perfection.
