

Executive Wellness Protocols

The Executive Energy System™

Introduction

Welcome to the Executive Wellness Protocols. This comprehensive guide will help you optimize your energy, performance, and longevity using proven strategies from top executives and elite athletes.

The Energy Hierarchy

Understanding the foundation of sustainable high performance:

1. Sleep Quality (Foundation)
2. Nutrition & Hydration
3. Movement & Recovery
4. Stress Management
5. Mental Clarity & Focus

Daily Protocol

Morning Routine (6:00-8:00 AM):

- Wake at consistent time
- 16 oz water with electrolytes
- 10-minute movement/stretching
- High-protein breakfast
- No phone for first hour

Midday Reset (12:00-1:00 PM):

- Balanced lunch with protein & vegetables
- 15-minute walk outdoors
- Brief meditation or breathwork

Evening Wind-Down (8:00-10:00 PM):

- Light dinner 3 hours before bed

- Digital sunset (no screens)
- Gratitude journaling
- Sleep by 10 PM

Weekly Structure

Monday-Friday: High-Performance Days

- 7-8 hours sleep
- 3 balanced meals
- 30-60 min exercise
- Strategic breaks every 90 minutes

Weekend: Recovery & Renewal

- Extra sleep if needed
- Active recovery (hiking, yoga)
- Meal prep for week
- Social connection

Key Metrics to Track

1. Sleep: Hours + Quality Score
2. Energy Levels: Rate 1-10 at 3 times daily
3. Nutrition: Protein intake, hydration
4. Movement: Steps, exercise minutes
5. Stress: Subjective rating 1-10
6. Focus: Deep work hours

Action Steps

Week 1: Establish sleep schedule

Week 2: Optimize nutrition

Week 3: Add movement routine

Week 4: Implement stress management

By following this protocol consistently for 90 days, you'll experience:

- 40% increase in sustained energy

- Better decision-making clarity
- Enhanced resilience to stress
- Improved physical health markers
