

# SALES MASTERY: QUICK REFERENCE GUIDE

Your one-page cheat sheet for high-ticket closing. Keep this guide handy during sales calls, prospecting sessions, and deal reviews. These are the frameworks, scripts, and formulas that separate the top 1% from everyone else.

# THE 3 LEVELS OF SALES MATURITY

## LEVEL 1: TRANSACTIONAL

You take orders. You compete on price. This is where most salespeople get stuck—fighting over pennies and racing to the bottom.

## LEVEL 2: CONSULTATIVE

You solve problems. You compete on value. You're building relationships and uncovering needs, but still playing in a crowded field.

## LEVEL 3: STRATEGIC

You create vision. You have no competition. At this level, you're not selling—you're architecting transformation and creating opportunities that didn't exist before.

**Your Goal:** Operate at Level 3 in every interaction. This is where million-dollar deals happen. This is where you stop chasing prospects and start attracting them. The shift from Level 2 to Level 3 isn't about working harder—it's about thinking bigger and positioning yourself as the architect of their future success.

# THE 3X3X3 PROSPECTING RULE™

01

---

## 3 CHANNELS

Use exactly three prospecting channels: LinkedIn, Email, Phone. Don't spread yourself thin. Master these three and dominate.

02

---

## 3 TOUCHES PER DAY

Make three meaningful touches per channel, daily. That's 9 quality interactions every single day. Consistency beats intensity.

03

---

## 3 MONTHS

Do this consistently for 90 days to build a full pipeline. No shortcuts. No excuses. Just execution.

**Result: 810 total touches = predictable pipeline flow.** This isn't theory—it's math. When you hit 810 touches over 90 days, your pipeline becomes predictable, your income becomes stable, and your confidence becomes unshakeable. Most reps fail because they quit at day 30. The top 1% understand that the magic happens in month three when the compound effect kicks in and deals start flowing.

# THE PERFECT DISCOVERY QUESTION SEQUENCE

1

## CURRENT STATE

"Walk me through your current process for [X]..."

2

## PAIN IDENTIFICATION

"What's the cost of not solving this problem?"

3

## FUTURE STATE

"If we could wave a magic wand, what would success look like?"

4

## DECISION PROCESS

"Who else is involved in making this decision?"

5

## TIMELINE

"What's driving the timeline on your end?"

❏ **Pro Tip:** Listen 70%, talk 30%. The prospect should do most of the talking. Your job isn't to pitch—it's to uncover. The more they talk, the more they sell themselves. Master the art of the strategic pause and let silence do the heavy lifting.

# THE VALUE PROPOSITION FORMULA

## THE FRAMEWORK

"We help [target customer] achieve [specific outcome] by [unique mechanism], which results in [quantifiable benefit]."

## EXAMPLE IN ACTION

"We help enterprise sales teams achieve 40% higher close rates by implementing our proven discovery framework, which results in an average of \$2M in additional annual revenue."

## YOUR TURN

Customize this formula for your offering and memorize it. Practice until you can deliver it in your sleep. This should roll off your tongue in 15 seconds or less. If you can't articulate your value this clearly, your prospects won't understand it either.

# THE 3 MOST COMMON OBJECTIONS

## "I NEED TO THINK ABOUT IT"

**Translation:** Not convinced of value or need to consult someone.

**Response:** "I appreciate that. Most of our best clients said the same thing initially. Can I ask—what specifically do you need to think about? Is it [option A] or [option B]?"

**Why it works:** You're breaking down their vague concern into specific issues you can address right now.

## "IT'S TOO EXPENSIVE"

**Translation:** Don't see enough value to justify investment.

**Response:** "I understand. Let's revisit the numbers. You mentioned [pain] is costing you [amount] per [time]. Our solution eliminates that cost and adds [benefit]. Over [timeframe], that's [X]x ROI. Does that math work?"

**Why it works:** You're reframing from cost to investment and anchoring to their own numbers.

## "I NEED TO TALK TO MY [BOSS/PARTNER/TEAM]"

**Translation:** Not the decision-maker or need buy-in.

**Response:** "That makes sense. Who else needs to be part of this conversation? What concerns will they have? Let's schedule a call with everyone together."

**Why it works:** You're taking control and ensuring you get in front of all decision-makers at once.

# THE ASSUMPTIVE CLOSE SEQUENCE

1

## TEST FOR READINESS

"Based on everything we've discussed, does this feel like the right solution for [their need]?"

2

## ADDRESS REMAINING CONCERNS

"What questions do you still have?" [Address concerns thoroughly and confidently]

3

## ASSUME THE SALE

"Great. Let's get you started. The next step is [action]. I'll send the agreement today, and we can kick off [date]. Does that work?"

4

## CONFIRM AND EXECUTE

Confirm next steps and send agreement immediately. Strike while the iron is hot.

**Key Principle: Assume the sale. Act like it's already happening.** When you project confidence that this is the right move, the prospect feels it. Hesitation breeds hesitation. Certainty breeds certainty. The close isn't a moment—it's a natural conclusion to a conversation where you've created undeniable value.

# THE FOLLOW-UP CADENCE THAT CLOSES DEALS

**Golden Rule:** Add value in every touch. Never "just checking in."

Every interaction should move the deal forward or provide genuine insight. Generic follow-ups get ignored. Value-driven follow-ups get responses. The difference between a top performer and everyone else is often just better follow-up discipline.

# THE BANT QUALIFICATION FRAMEWORK

Before investing time in a deal, qualify on these four critical criteria. This framework saves you from wasting weeks on deals that were never going to close. Use it ruthlessly.

## BUDGET

Do they have the financial resources to invest in your solution?

## AUTHORITY

Are you speaking to the actual decision-maker or someone who can say yes?

## NEED

Do they have a clear, urgent problem you can solve?

## TIMELINE

Is there a specific timeframe for making a decision?

**Critical Rule:** If any of these are missing, either uncover them immediately or disqualify the prospect. Chasing unqualified deals is the fastest way to kill your pipeline and your confidence. The best closers know when to walk away.

# PRE-CALL RESEARCH & DISCOVERY CHECKLIST

## THE PRE-CALL RESEARCH CHECKLIST

- Company name, industry, size, recent news
- Decision-maker name, title, LinkedIn profile
- Key competitors and market position
- Recent press releases or announcements
- Three intelligent questions prepared
- Value hypothesis (what problem might they have?)

**Time Investment:** 10-15 minutes per prospect

**ROI:** 3x higher conversion rate

Those 15 minutes separate you from every lazy rep who shows up unprepared. Knowledge is power, and preparation is respect.

## THE DISCOVERY CALL QUALIFICATION CHECKLIST

- Clear pain identified and quantified
- Budget authority confirmed
- Decision timeline established
- All stakeholders identified
- Next steps agreed upon with specific date/time

**Non-Negotiable Truth:** If you can't check all five boxes, you don't have a qualified opportunity. You have a conversation. Don't confuse activity with progress.

Unqualified deals clog your pipeline and destroy your forecast accuracy. Be disciplined.

# KEY SALES METRICS TO TRACK DAILY

**9+**

## PROSPECTING TOUCHES

Daily outreach across all channels.  
This is your leading indicator.

**2-3**

## DISCOVERY CALLS

Completed per day with qualified prospects. Quality conversations drive everything.

**5+**

## PROPOSALS SENT

Per week to decision-makers. Keep your pipeline flowing.

**\$\$**

## DEALS CLOSED

Your ultimate scorecard. This number tells the truth.

**What gets measured gets managed. What gets managed gets improved.** If you're not tracking these numbers daily, you're flying blind. The top 1% obsess over their metrics because they know that success leaves clues in the data. Your numbers don't lie—they reveal exactly where you need to improve. Track them religiously, review them weekly, and adjust your behavior based on what you learn.

# THE 80/20 RULE IN SALES

## THE PRINCIPLE

80% of your revenue comes from 20% of your activities. Most salespeople are busy, not productive. They confuse motion with progress and wonder why their results don't match their effort.

## HIGH-VALUE ACTIVITIES (FOCUS HERE)

- Discovery calls with qualified prospects
- Proposal presentations to decision-makers
- Closing conversations with hot leads
- Strategic relationship building with ideal clients

## LOW-VALUE ACTIVITIES (MINIMIZE THESE)

- Administrative tasks that don't move deals forward
- Unqualified cold outreach to anyone with a pulse
- Internal meetings without clear outcomes
- Busy work that makes you feel productive

📌 **Action Step:** Audit your calendar weekly. Are you spending 80% of your time on high-value activities? If not, you're leaving money on the table. Ruthlessly eliminate, delegate, or automate everything else. Your time is your most valuable asset—invest it wisely.

# MILLION-DOLLAR MINDSET SHIFTS

1

**FROM: "I HOPE THEY BUY"**

To: "I'm here to see if we're a fit"

2

**FROM: "I NEED TO CLOSE THIS DEAL"**

To: "I need to solve their problem"

3

**FROM: "THEY CAN'T AFFORD IT"**

To: "They can't afford not to solve this"

1

**FROM: "I'M SELLING"**

To: "I'm serving"

2

**FROM: "I'M AFRAID OF REJECTION"**

To: "No is just information"

**The Belief-Behavior-Results Trinity™:** Beliefs → Behaviors → Results. To change your results, change your behaviors. To change your behaviors, change your beliefs. A limiting belief like "I'm not good at sales" creates tentative behavior and mediocre results. An empowering belief like "I'm a trusted advisor who helps clients solve critical problems" creates confident behavior and exceptional results. Your mindset isn't soft stuff—it's the foundation of everything.

# SCRIPTS FOR CRITICAL MOMENTS

## OPENING A COLD CALL

"Hi [Name], this is [Your Name] from [Company]. I know I'm calling out of the blue—do you have 30 seconds for me to tell you why I called?"

*Honest, respectful, and disarming. Gets you past the first 3 seconds.*

## HANDLING "SEND ME INFORMATION"

"Happy to. But I want to make sure I send you the right information. Can I ask you two quick questions first? [Qualify]"

*Maintains control and ensures you're not wasting time on tire-kickers.*

## ASKING FOR THE MEETING

"Based on what you've shared, I think we can help. I'd love to schedule 30 minutes to dive deeper. Does Thursday at 2pm or Friday at 10am work better for you?"

*Assumptive and offers choice between two yeses.*

## CONFIRMING NEXT STEPS

"Just to confirm, you'll [action] by [date], and I'll [action] by [date]. Then we'll connect on [specific date/time]. Sound good?"

*Creates accountability and prevents deals from going dark.*

**The Post-Close Excellence Checklist:** Agreement sent within 24 hours • Kickoff date scheduled • All stakeholders notified • Payment terms confirmed • Invoice sent • Payment received • Welcome packet delivered • First milestone scheduled • Internal team briefed. Remember: Your reputation is built on delivery, not just closing. A smooth transition from sale to onboarding creates raving fans who refer you to your network. The sale is just the beginning of the relationship.
